“Statement From Mayor Mark Mallory”

Mayor Mark Mallory issues the following statement on announcement of nine federal indictments of members of a group known as the “Grimmie Group.”

"These arrests are great news for Cincinnati. This is the result of months of joint investigation between our Police Department and the federal authorities to get these criminals off the streets. They have been terrorizing Cincinnati streets; now they are facing federal prosecution and incarceration. This is why I have made increasing the collaboration between the city and federal law enforcement agencies a priority."
